Continuation of Substance of Interview including description of the general nature of what was discussed: It was agreed that the elected specie II "polymer of ethylene oxide" means the polymer poy(ethylene oxide). It was agreed that the listing of claims 1-31 as reading on the elected species in Applicants' resposne filed 7/7/08 is inaccurate. It was further agreed that claims 19-21 do not read on poly(ethylene oxide), rather they read on conjugates or derivatives thereof, and thus are not within the scope of the elected poly(ethylene oxide). It was also agreed that claim 32 does read on the elected species. Accordingly, it was agreed that claims 1-18 and 22-32 read on the elected species and that claims 19-21 should be withdrawn as not reading on the elected species if the restriction requirement is maintained.
